

## What does KYC/KRA status means, and how to checked it?

SEBI has been directed to upload all client information, obtained through the KYC process, to the KRA agency. This agency serves as the central repository for client data across various brokers. Opening a new account is only possible if the data has been uploaded and successfully verified/registered with the KRA agency. To check the real-time status of KYC data, please follow these steps:

- Visit [cvlkra.com](http://cvlkra.com).
- Click on KYC inquiry.
- Enter your PAN number, input the captcha, and click Submit to fetch the status.

Status	What does it Signify?	What steps should be taken?
Registered	KYC is registered successfully	No Action
Under process	This status indicates that the account was recently opened and it takes approximately 5 days for the KYC to be updated	Please wait for the KYC process to be completed
On-hold or rejected	This status appears when the existing broker did not update the details with accurate information and documents	Submit a new KYC form along with supporting documents such as a self-attested PAN copy and address proof

Clients are required to visit their KRA website listed below and follow the on-screen instructions to validate their details:
